

Little Folks School House July 2026 Newsletter

Giraffe Parents: The Giraffe Room has lots of activities planned this summer! From trips to the library, walks to the park and water play, they will be busy! Please let the teachers and the office know if your child will be arriving late or leaving early so the teachers can plan accordingly for the day.

Parents, please let the office know as soon as possible if your child will not be in attendance or will be leaving early on Friday, July 3rd. We want to make sure we are properly staffed!

Turtle, Bee & Giraffe Bike Day:

July 2nd & July 22nd!

Please be sure to label your child's bike and helmet for our bike days! There are many of the same styles! This is great exercise for the kiddos and lots of fun! We understand that transporting a bike can be a little bit of an inconvenience but they have a blast, so thank you! Please be sure to check out our Facebook page for all the fun pictures!

Kewaskum Fireworks: Kewaskum will be having their fireworks on Friday, July 3rd. If you are interested in reserving a parking spot in the LFSH parking lot, please let the office know!

New Staff: This month we welcome two new teachers to LFSH! Be sure to say hi to Ms. Diane & Ms. Emily!

Vacations: July & August are popular vacation months! Please let the office know in advance, if possible, of any days that your child will not be in attendance.

Shoes: If possible, please either send your child to Little Folks in tennis shoes or send an extra pair along. We spend a lot of time outside walking, running and playing on the playground and tennis shoes are the best for that!

Extreme Heat: State law dictates that children in daycare go outside daily. We comply with this by taking the children out several times a day. On hot days, children are offered their water bottles and are misted. They are also encouraged to use our shady areas. It is written in our policies that children will not go outside if the temperature exceeds 95 degrees. However, we have a chart that outlines air temperature, humidity and heat index. It tells us when it is comfortable for outside play and when to exercise caution.
